

Certificate preprints for schools

Certificate papers should be protected...

***Certificates with watermark
and copy protection***

- Neutral certificate paper Baden-Württemberg
- Graduation certificate Baden-Württemberg
- Certificate "Allgemeine Hochschulreife" Baden-Württemberg
- Customised certificate paper with your watermark
- Can be combined with other safety elements

Certificate preprints for schools

Neutral certificate paper
Original with watermark
(coat of arms Baden-Württemberg).
"COPY" appears with each copy.

Protect your certificates from manipulation!
With watermark and additional copy protection
your certificates are safe.

Certificates are very important documents

Documents are important pieces of writing printed on paper. The viewer assumes that the content is correct – that is, not manipulated. But who wants to put their hand in the fire for this today?

With modern copying and scanning technology, forgeries are becoming increasingly easy – and the risk of detection is low. **That is why it is more important than ever to take specific precautions against this.**

We offer you a security paper that is effective, simple and inexpensive.

Graduation certificate coloured
Original with watermark
(coat of arms Baden-Württemberg).
"COPY" appears with each copy.

How does the new security paper work?

The first thing you notice on the original is the national coat of arms as a watermark. This watermark cannot be imitated. In addition, the entire paper is printed with very fine microdots. This makes any attempts at manipulation visible.

And how does the automatic copy protection work?

When copying, a grey lettering "COPY" automatically appears across the entire page on each copy – and the watermark has disappeared. This makes it easy to clearly distinguish between the original and the copy – without any aids.

Certificate "Allgemeine Hochschulreife"
New version since 2021! Original with
watermark (yellow background).
Copy with watermark (white background).

Switching to the new certificate forms

Our new security forms comply with the official administrative regulations and allow you to change over immediately without any problems.

They can be used in all printers without restriction – just like normal paper. Existing software and form masks do not need to be changed.

Delivery directly from the manufacturer

We have not only developed this security paper – we also produce it in our own factory. **This allows us to offer you particularly favourable prices – without a publisher or trade surcharge.**

Innovation Award for Security Paper

Our company HERRMANN Druck+Media GmbH was awarded the **VR Innovation Prize** for the development and production of a forgery-proof paper.

At the award ceremony, the then Minister President Oettinger praised not only the amazing protective effect, but also the fact that no expensive special paper was required.

This means that nothing stands in the way of widespread use in everyday life.

Neutral certificate forms (Baden-Württemberg)

- Original without imprint – only coat of arms Baden-Württemberg as watermark
- Additionally with copy protection "COPY"
- DIN A5 and DIN A4, paper 100 g, laser and inkjet suitable

| Order number | Versions (Copy protection) | Format |
|--------------|--------------------------------|-----------|
| Z 5210 SC-N | one-sided (VS with COPY) | DIN A5 |
| Z 5211 SC-N | double-sided (VS+RS with COPY) | DIN A5 |
| Z 5411 SC-N | double A5 (VS+RS with COPY) | 2x DIN A5 |
| Z 4210 SC-N | one-sided (VS with COPY) | DIN A4 |
| Z 4211 SC-N | double-sided (VS+RS with COPY) | DIN A4 |

Preprints for graduation certificates (B.-Württ.)

- Original with imprint of the coat of arms Baden-Württemberg in colour – and as watermark
- Additionally with copy protection "COPY"
- DIN A5 and DIN A4, paper 100 g, laser- and inkjet-suitable

|--------------|-----------------------------------|-----------|
| Z 5240 SC-BW | one-sided (VS with COPY) | DIN A5 |
| Z 5241 SC-BW | double-sided (VS+RS with COPY) | DIN A5 |
| Z 5441 SC-BW | double A5 (VS+RS with COPY) | 2x DIN A5 |
| Z 4240 SC-BW | one-sided (VS with COPY) | DIN A4 |
| Z 4241 SC-BW | double-sided (VS+RS with COPY) | DIN A4 |
| Z 4244 A-BW | Allg. Hochschulreife – Original | DIN A4 |
| Z 4240 AZ-BW | Allg. Hochschulreife – Transcript | DIN A4 |

Totally individual: Pre-printed forms with your watermark

The elements of our security paper can also be easily integrated into other certificates, diplomas or stationery. This allows you to optimally adapt the paper and imprint to your requirements – without changing the appearance.

Individual watermarks

The respective logo of the school was used as watermark for these originals.

Further **information** on the internet at www.hdruck.com/en/certificate-paper

Neutral certificate forms

In the future, you can easily protect your certificates and credentials!

The security paper can be used immediately without any problems. The **original** has the coat of arms Baden-Württemberg as a watermark. The watermark disappears on the **copy** – a distinctive "COPY" is visible instead.

This means that originals and all copies are identified beyond doubt.

The **certificate forms** are already available in small quantities from stock at short notice.

A few facts about us

As a medium-sized printing company on the Swabian Alb, south of Stuttgart, we have specialised in the production of forgery-proof documents for about 20 years. For this purpose, we use various security elements, some of which we have developed ourselves, which cannot be copied even with the most modern copying technology.

Papers with our security elements have been used successfully for years, e.g. as COC paper in the automotive industry and at registry offices, e.g. for civil status certificates.

Professional advice and samples

Test yourself As specialists, we know what matters, what is possible and what makes sense – and how an individual implementation can best be realised.

If you would like to test the function of our copy protection yourself first, we will be happy to send you corresponding **samples**.

Contact us If you have any questions or need samples, please contact us.

We look forward to your call, will be happy to answer your questions and give you expert advice.

FAQ – Frequently asked questions

How does this certificate paper work?

Each original contains the coat of arms Baden-Württemberg as a watermark that cannot be counterfeited. On almost all forms, the entire sheet is printed with very fine microdots to make any attempts at counterfeiting visible. With the exception of the "Allgemeine Hochschulreife" certificate, the word "COPY" automatically appears on every copy. There is no watermark on the copies. This means that the original and the copy can be easily and clearly distinguished from each other.

Which paper thicknesses make sense?

We generally use 100 g paper for neutral certificate forms and graduation certificate forms. Forms for the general university entrance qualification are available in 130 g. For customised designs, paper weights of 80 to 170 g are possible. However, you should observe the specifications of your printer for your imprints.

How long does the watermark last?

You can be sure that our watermark will remain unchanged for over 20 years.

Important: With our technology, the watermark also does not yellow during this time.

What are the costs?

Many certificate forms are available from stock.

An individual watermark is cheaper than an embossing or a hologram.

The same applies to our COPYMARK copy protection.

Of course, we will be happy to provide you with a binding offer in advance.

We will gladly advise you:
